

DESCRIBE Canada's present moment.

What are the most concerning ENVIRONMENTAL & SOCIAL INJUSTICES we are currently facing?

undrip, first nations injustices, SMRs being against the will of the people from the community

making the connection between environmental choices and the power dynamics, disproportionate impacts communities are facing

environmental racism related to the transition of the renewable energy

Who might disproportionately carry the burden of the environmental costs of this decision?

communities that suffer from the extraction of the resources for the materials

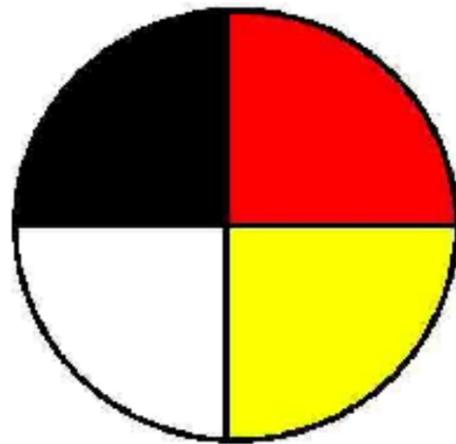

STAND WITH FRONTLINE COMMUNITIES IN OUR FIGHT FOR ENVIRONMENTAL JUSTICE, AGAINST THE RAVAGES OF TOXIC CHEMICALS AND CLIMATE CHANGE.

Pushing for First Nations leadership. Making sure those voices are coming to the forefront.

important to try and make stronger links to social justice issues like income inequality

Multiple parties agree that we are in right relations with each other and with Mother Earth

Having the power to say NO!

UNDRIP:
Prior informed consent!

Connect Black Lives Matter with environment

ENVISION Canada's evolution over the next decade.

Describe what ultimate ENVIRONMENTAL & SOCIAL JUSTICE looks like.

THEORY OF CHANGE

What are the main **OBSTACLES** to reaching our environmental and social justice goals?

What **ACTIONS** do we need to **TAKE** to overcome them?

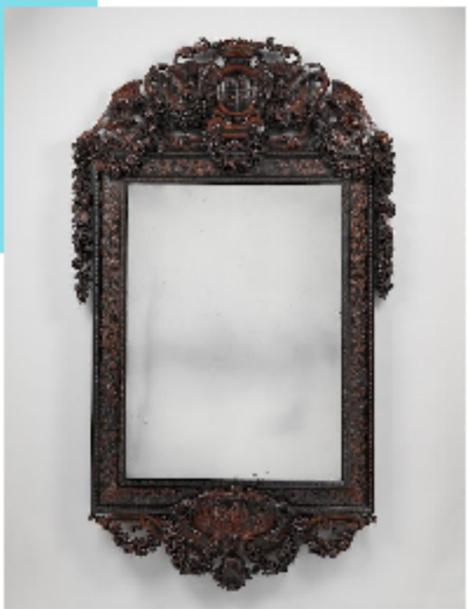

Tackling disinformation campaigns from the fossil industry

FAKE NEWS

Privileged people being generous with their power to uplift unjustly burdened populations.

Lack of self-reflection/awareness, empathy + white fragility and other forms of ignorance & denial of how we benefit from oppressive enviro systems...

Becoming aware of how we use our privilege & power and who it is serving and not serving

Listening to marginalized voices to truly understand their needs and worldview instead of approaching conversations from a colonial patriarchal view.
